Continuation of Substance of Interview including description of the general nature of what was discussed:

I informed William Foster, that the means plus function in Claim 8, contained enough structure to perform the function. I suggested deleting the term valve from the clause as a possible solution.

William Foster informed me that he would consider my suggestions and wanted to make some minor changes to the application, specifically changing upstream to downstream. William Foster suggested faxing a propose amendment.

After reviewing the proposed amendment I informed William Foster that all the changes look good and Claims 10-12 would be rejoined. William Foster agreed with all the changes set forth in the Examiner's Amendment.
